MoHUA Holds Swachh Survekshan 2019 Awards Ceremony

New Delhi | March 6, 2019: The Ministry of Housing & Urban Affairs (MoHUA), under the aegis of Swachh Bharat Mission - Urban (SBM-Urban) organized the Swachh Survekshan 2019 Awards Ceremony on 6 March 2019 at Vigyan Bhavan, New Delhi. Shri Ram Nath Kovind, Honourable President of India was the Chief Guest at the event. In all, nearly 200 cities and states received awards and citations during the ceremony. While the Hon'ble President gave away awards for the best-performing 10 states and cities that have topped the charts in the recently concluded Swachh Survekshan 2019, other awards and citations were given away by Shri Hardeep Singh Puri, Minister of State (IC), Housing and Urban Affairs, and by Shri Durga Shanker Mishra, Secretary, Housing and Urban Affairs.

The event was attended by more than 1200 dignitaries comprising senior officials, Municipal Commissioners and other staff from the awardee states and cities, and other stakeholders working with the Ministry in the area of urban sanitation and solid waste management. Participants at the day-long event were also witness to an exhibition at the venue showcasing the progress and achievements under Swachh Bharat Mission (Urban) (SBM Urban).

Shri Ram Nath Kovind, Honourable President of India visited the exhibition area which showcased the progress made by Swachh Bharat Mission (Urban) reflecting upon key initiatives undertaken by the Ministry. The exhibition emphasized on key areas such as convergence with Self Help groups to derive valuable products from Waste Material. Addressing the audience at the inaugural session of the event, The Honourable President of India congratulated the ministry on the impressive achievements under SBM Urban in the last four and a half years on both sanitation and solid waste management fronts. The President specially mentioned the role of Swachh Survekshan in accelerating the implementation of Swachh Bharat Mission by transforming it into a massive 'jan andolan', along with rapid and visible on-ground impacts. Addressing the audience he said *"Swachh Survekshan survey has evolved as a powerful and transparent Mission governance and implementation tool, while giving rise to a healthy spirit of competition among states and cities in their race towards becoming 'swachh', swasth & samridhh. It is the largest cleanliness survey in the world, impacting nearly 40 crore urban population."* He further emphasized that investments in sanitation and garbage free cities has the potential to provide a better quality of life for all, especially the economically weaker sections, ensuring dignity and safety of women and children, positively impacting health outcomes through reduction in vector-borne diseases, providing enhanced livelihood opportunities and greater

earning potential for rag pickers and other informal sectors, opening up entrepreneurial opportunities in the waste management sector, and improving tourism potential and resultant foreign exchange inflow, thus positively impacting the GDP of the country.

Shri Hardeep Singh Puri, Minister of State (IC) – Housing & Urban Affairs, in his address touched upon the achievements of the Swachh Bharat Mission (Urban) so far. He highlighted that that urban areas of 23 states and UTs covering 94% of cities and towns have become Open Defecation Free (ODF). This has been achieved by the construction of nearly 63 lakh Individual Household Toilets (94% progress against mission target), and 5 lakh seats of community / public toilets (more than 100% progress against mission target) under the Mission. Further more than 42,000 public toilet blocks across 1400 cities have been mapped and visible on Google maps. In the area of solid waste management, approximately, 52% of the total waste generated in the country is being processed (compared to a mere 18% at the start of the Mission), 89% of wards are covered by door to door collection and 61% of wards are practicing source segregation. The MoS also highlighted the innovative concept of Star Rating protocol for Garbage Free cities that MoHUA has introduced in order to give a fillip to the Solid Waste Management efforts of cities.

Detailed reports on Swachh Survekshan 2019 rankings, Social Media outreach, Innovations & Best practices and Impact of Swachh Survekshan were released during the event. The detail of awardees is attached **(Annexure-A)** along with list of top-50 cities overall **(Annexure-B)**, top-50 in more than 1 lakh population cities **(Annexure-C)** and top-50 cities in less than 1 lakh population category **(Annexure-D)**.

Two books of case study compilations on IEC/Behavior Change and ICT interventions as part of MOHUA's 'Transforming Urban Landscapes of India" series documenting good practices from across the country were also released on the occasion. Simultaneously, an advisory on Plastic Waste Management focusing on various methods available to deal with the menace of plastic waste including technologies and case studies from across the country was released by the ministry.

The highlight of the afternoon session of the event, apart from the awards and citations, were two panel discussions on 'Circular Economy and Waste Management System' and 'Creating an Eco System for Private Sector Participation in Sanitation and SWM'. While the former deliberated on innovative business models and opportunities for small and medium enterprises in applying circular economy principles in Waste

Management Systems and the role of government in creating an enabling environment, the latter identified ways of optimally leveraging the private sector for sustainable implementation of Solid and human waste, and policy changes required to build up an enabling environment for the same. Panelists for these discussions included senior government officials and eminent persons from the industry.

The Swachh Survekshan exercise was started by MoHUA with the objective of generating large scale citizen participation in the Mission, while parallelly inculcating a spirit of healthy competition among cities in their race towards becoming India's cleanest cities. MoHUA conducted its first survey 'Swachh Survekshan-2016' survey for ranking 73 cities (Urban Local Bodies), in January 2016, under the ambit of the Swachh Bharat Mission (Urban). In order to expand the coverage of cities, the Ministry conducted its second survey 'Swachh Survekshan-2017' in January-February 2017, to rank 434 cities. Swachh Survekshan 2018 saw a massive increase in both scale of survey and intensity of participation, with 4,203 cities covered in last year's survey. Swachh Survekshan 2019, with its main focus on sustainability of achieved outcomes, has scaled even greater heights, covering 4,237 cities in a record time of 28 days, in a completely paperless, digital format for data collection, and garnered feedback from 64 lakh citizens. This year, the survey was unique in various respects. The data collection from ULBs was done in a completely paperless, digital format, in the true spirit of Digital India. Moreover, the newly introduced certifications (for both ODF/ODF+/ODF++ and Garbage Free cities) were included in the overall scoring in the survey.

The achievements of Swachh Survekshan 2019 include-1.5 cr. Citizens have downloaded the SBM citizen grievance redressal app 'Swachhata App' with 1.58 cr. complaints registered and 1.57 complaints resolved till date; 84,000 informal waste pickers have been formally integrated into sustainable livelihoods; 4.6 lakh sanitary workers have been provided medical benefits; 18,329 Garbage Vulnerable Points have been transformed; 345 landfill sites have been remediated and more than 370 cities are practicing segregation at source in more than 80% of their wards providing further proof about how the Survekshan has evolved over the years to be a tool for effective implementation for SBM-Urban.
